

IN-CLASS EXERCISE 6 ...

Given an array of total monthly expenses for first 6 months of the year in order.

```
var exp = [4000, 5000, 6500, 5000, 2800, 3500];
```

Use forEach loop to traverse the array and add 2% interest for the months where the amount exceeds 4000. The interest is only for the amount above 4000. Store the final value in the same array and print it.

Do it in Break-out Rooms and
submit your code to
LimuNUS->In-Class
Exercise-6.
