IN-CLASS EXERCISE 4 .....

ABC bank has stored account opening date as string in the form "**dd-mm-yy**". Due to recent changes in the design, it wants to change the format to "**yy-mm-dd**" (that is, in reverse order). You are required to write a javascript code using stack operations to reverse a date string.

Do it in Break-out Rooms and submit your code to LimuNUS->In-Class Exercise-4.
